

Your Home Base for Password Management

Help keep your business safe with our comprehensive password management service

Secure passwords are essential for keeping sensitive data and key IT systems safe from hackers and other threats.

If you're re-using the same passwords across multiple accounts, or you don't know who has access to which systems, your whole business could be at risk.

Help eliminate that risk with our easy-to-use password management service.

ONE PORTAL FOR ALL YOUR PASSWORD NEEDS

- Save time with instant credential insertion—no more remembering lists of passwords
- Centrally control employee access to systems, so only those who should be on critical systems have access to them
- Easily terminate access to all systems following an employee's departure
- Track and record all system access to help meet compliance audit requirements

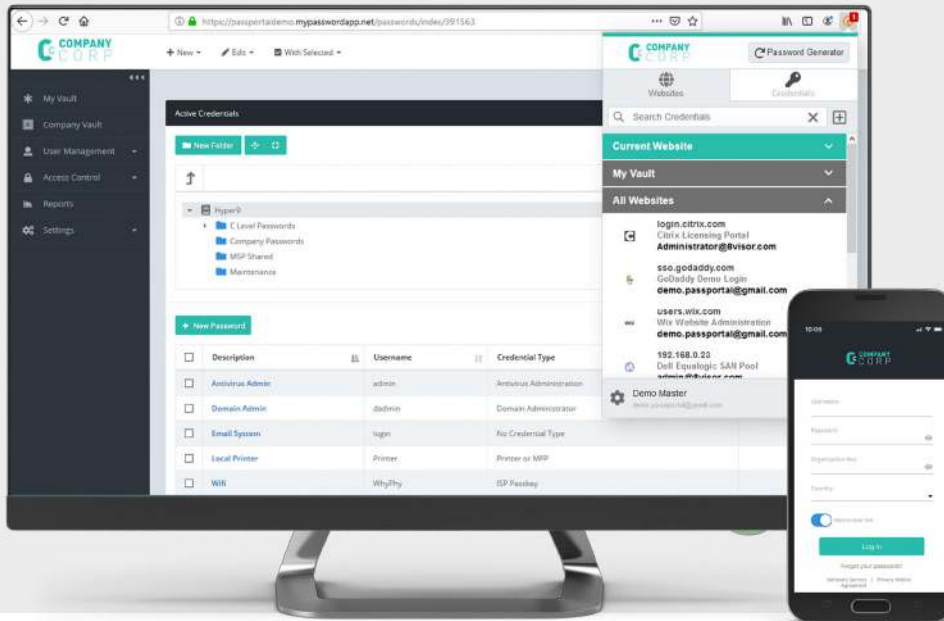

CONVENIENCE, EASE, AND PEACE OF MIND

- 1 Comprehensive safety**
Generates strong passwords automatically
- 2 One-click logins**
Automatically inserts credentials
- 3 Self-serve access control**
Allows you to revoke system access—without having to contact us

Here's how it works

See what you can do in our self-serve portal:

Take it on the go
with the mobile app.

Users:

- ✓ Log into websites with a single click
- ✓ Set up folders to organize passwords
- ✓ Generate strong, unique passwords
- ✓ View company-level passwords
- ✓ View passwords unique to their operating group or business unit
- ✓ Add and edit passwords for personal accounts—inaccessible to all other users, admins, and even our team

Admins:

- ✓ View audits and reports on password-related activity
- ✓ Terminate system access for employees who leave the company
- ✓ Share approved passwords with our team automatically
- ✓ Set up passwords to auto-expire and auto-generate strong, new passwords
- ✓ Implement two-factor authentication (2FA) policies
